Support Services Philosophy

Support the educational programs academically and beyond as efficiently and quietly as possible

We accomplish this by:

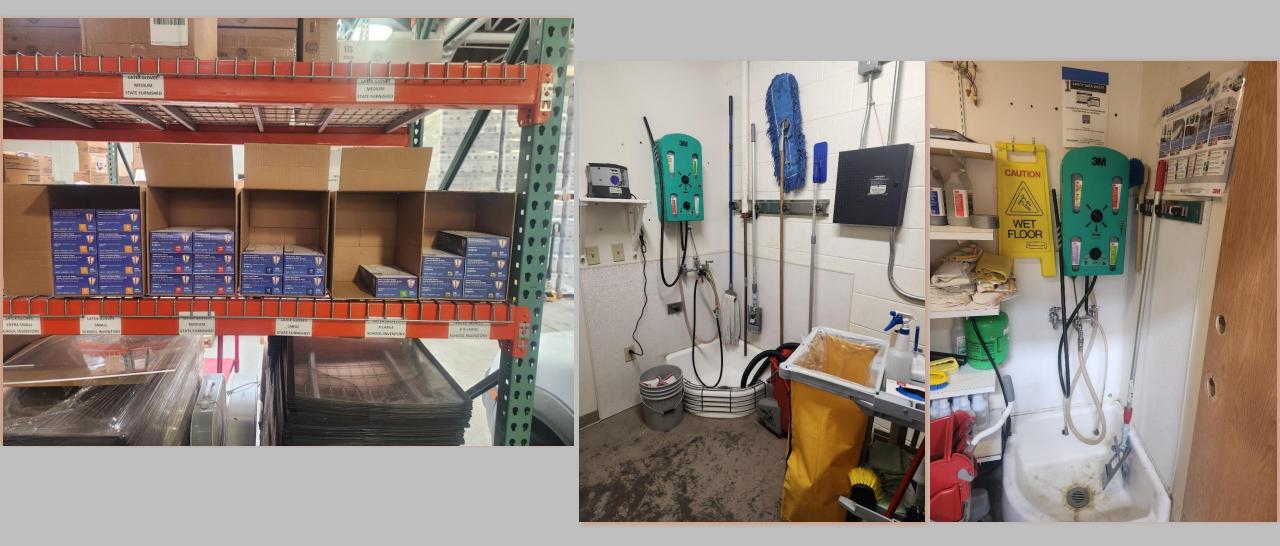

Organization of all areas

Custodial closets, warehouse, maintenance shop, grounds shop, vehicles and plan room

Unification of processes, products and supplies

All custodial areas use the same cleaning products, equipment, custodial supplies and carts. A closet at Westside is set up the same as Clark or the Admin building. This limits the number of products we have to order and keep on the shelf.

Continued Preventative Maintenance (PM)

Our team gets work orders systematically for filter changes, lubrication of equipment, appliance maintenance, emergency light and fire extinguisher checks, and playground equipment checks.

Be as self-sufficient as possible to limit outside influence

We do most of our own HVAC PM work, lawn care, weed control, equipment maintenance and snow removal.

Our building custodians and three maintenance techs are first call for demand work like plumbing, lighting, electrical, carpentry, door access, pest control, equipment failure like mixers and shop equipment, freight delivery unloading, furniture construction and installs, parking lot painting, athletic field painting and tree replacement.
